While members of the railroad commission are not willing to make pub-lic statements before formal hearing, it is known that a majority of them favor the plan to keep the system intact and not dismember it into branch lines.

An expected re-organization plan road company has begun in ap. plication to the Michigan railroad commission for a hearing at which a plan decided on by the reorganization committee representing various bond and security holders could be presented and approved.

When the railroad commission approves the plan-it-will be referred back to the various combinations of bond and other security holders. There is every indication that the

plan will be adopted. The plan offered wipes out all pres ent indebtedness of the road, amounting in actual value to \$125,000,000, and substitutes therefor bonds and stocks, both preferred and common,

THE MAN OF MYSTERY.

1802 a gorgeous charlot drew up be fore the principal inn of Heidelberg. It was drawn by four prancing steeds, which wore silver-mounted harness, and the coach itself was lavishly decorated with expensive curlicues. From this vehicle there presently stepped forth a man of stately and commanding appearance, a lady of queenly bearing, and three small children, the party being followed by a demale servant.

There wasn't much doing at Heidelberg just then, and the coming of this princely stranger created a sensation. Three Hundred Million Bushel Crop in 1915

Farmers pay for their land with one year's cros and prosperity was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is

sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions.

Wheat averaged in 1915 over 25 bushels per **acre** Oats averaged in 1915 over 45 bushels per acre Barley averaged in 1915 over 40 bushels per acre

Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from \$12 to \$30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.

There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive illustrated pamphlet, address Superintendent Immigration, Ottawa, or

It is fighting your fight.

It has 60,000 members in Michigan. It has a state organization in thirtytwo states

It would help you to with your neighbors.

It takes in the farmer, his wife and children.

It will teach you how to think while on your feet. It is the farmers' "High School."

It will help you be a better farmer and a better citizen. Its admission 'fees and its dues are within your means, viz., fees, Men

But we'll never get into a fuss. We'll be glad to let you ride the goat and talk, sing and vote. Then we farmers will pull together in storm and sunshine weather. We'll work for nothing, which is wrong. We'll give three cheers loud and long. We'll all be friends and not strangers. Be cause we all are good Grangers.

COOKING LIMA BEANS

MATTER WORTHY CAREFUL AT-TENTION OF HOUSEWIFE.

Food Specialists Suggest Some Metheds of Preparing the Dried and Canned Product to the Best Possible Advantage.

Food experts have long been insisting upon the importance of dried beans, peas, cowpeas and similar and in one form or another such foods are an accepted part of the diet in most families. In order that she may make the diet varied, it is to the housekeeper's advantage to know a number of good ways of serving such foods, and so the home economics ex-perts of the department have made some suggestions based upon their studies of foods and their uses in the

Fresh green lima beans when at their best have a delicate, spicy of pungent flavor, which to some palates, at least, suggests curry, a fairly welfknown (any grocer can get it) though not very common spice, which is perhaps most familiar in such dishes as suggested the possible use of curry as a seasoning for lima beans, and the tests which have been made gave very satisfactory results with dried and canned as well as with fresh beans.

THE MAN OF MYSTERY.

One bright day in the winter of 1802 a gorgeous charlot drew up be fore the principal inn of Heidelberg. It was drawn by four prancing steeds, which wore silver-mounted harness, and the coach itself was lavishly decorated with expensive curlicues. From this vehicle there presently. stepped forth a man of stately and commanding appearance, a lady of queenly bearing, and three small children, the party being followed by a female servant.

CLEAN UP AND PAINT UP A CONTINUOUS CAMPAIGN

Suggestions For Making Our Town a Better Home Town-Chairman of National Bureau Says Start Now and Keep It Up the Year Round.

INCE Hereules diverted the river to renovate the Augean stables "Clean Up" has had its place in the world's vernacular. With spring the desire to refurbish comes ubconsciously into the hearts of men and women, and communities. But without direction and sustained effort the expression of that desire, in the form of the ordinary "Clean-Up Day" or "Week," is apt to result in a super-

icial sally against filth. Years ago Allen W. Clark, a St. Louis editor, made up his mind that this natural "Clean Up" instinct could be turned to account, that it could be developed into a real campaign working toward definite ideals and accomplishing permanent results. And so, in May, 1912. Mr. Clark founded the National Clean Up and Paint Up" Campaign Bureau, with hendquarters in St. Louis. He hoped that a thorough going movement, untional in its scope and practical in its principles, might take the place of the "annual bath" idea as expressed in the old-time "clean np day" or "week."

A National Civic Movement. For four years the scope of the National Bureau's service has rapidly extended until this year it is co-operating with more than 6,000 local communities in the organization and direction of roal "Clean-Ep-and Paint-Up" campaigns, not "days," or "weeks." tontinuous campaigns for homes and hometowns beautiful, sanitary and

this suggested by the National Bureau are well illustrated by a brief description of the local campaign organization in St. Louis. With various adaptations this St. Louis plan has been found practicable in any city, no matter how large or small.

The entire campaign is under the di-

rection of the Continuous St. Louis Committee, of which Charles M. Talbert, director of streets and sewers, is chairman. On this committee are various civic and business leaders, including the leading club women of the city Each member of the general committee is chairman of a subcommittee re-

sponsible for some definite department of the campaign's activity. The Di-rector of Streets and Sewers is chairman of the committee on "Refuse Clean-up," the chief of the Fire Department is chairman of the committee on fire prevention and the head of the Health Department is chairman of the committee on housing reform. There are two ways in which you can curtail your monthly table expense. One is to buy a very cheap grade of provisions and groceries, which, while apparently cheap in price, are yet even cheaper in quality, are lacking in the proper nourishment, and eventually lead to the impairment of your health. The other and better way is to buy only articles of guaranteed purity. Such articles are rich in the life sustaining nutriment and hence require a less amount to satisfy the demands of nature. You can readily see that in the end they are by far the cheaper, because they stimulate health, prevent doctor bills, and prolong your life and usefulness.

This Store Handles Only a Pure and Guaranteed Grade of Groceries and Provisions, but we Sell Them at Popular Prices. Try them.
